

MOBILE BANKING SECURITY

As a Home Banking user, you can use Mobile Banking to:

- Access your checking, savings, mortgage, line of credit, loan and other accounts with Velocity
- Pay your bills anywhere, anytime through Bill Pay
- Transfer funds immediately between your Velocity accounts

Mobile Banking Enhanced Security Features -Just because you're mobile, doesn't mean you have to sacrifice security. Our highly secure Home Banking system protects your sensitive data through the following security precautions:

- Multi-factor authentication
- Member selected 8-character minimum (16-character maximum) passwords
- Deactivation in event of theft or loss
- Encryption of locally stored data
- Secure socket layer (SSL) connection
- iPhone compatible
